REMARKS

The Applicants acknowledge the Examiner's comprehensive Office Action, a Final Rejection, with appreciation. Claims 19-24 remain under consideration. The Office has withdrawn the previously issued rejection for lack of written description under 35 USC § 112, first paragraph; however, the Office maintains the lack of enablement rejection under 35 USC § 112, first paragraph.

Claims 19-24 remain rejected for lack of enablement under 35 USC § 112, first paragraph. The Office notes that the previously submitted MILLAN Declaration has been fully considered but was not found to be persuasive. It is the position of the Office that the specification, while being enabling for treating migraine, depression, bulimia, and anorexia, and for inhibiting penile erection, does not reasonably provide enablement for treatment of all the conditions claimed.

With the instant Amendment, method Claim 19 has been amended to limit the conditions claimed to be treatable to migraine, depression, bulimia, and anorexia, which conditions are acknowledged as enabled by the Office. Moreover, new Claim 25, directed to a method of inhibiting penile erection, which condition is also acknowledged as enabled by the Office, has been added. Thus, reconsideration and withdrawal of the lack of enablement rejection is respectfully requested.

Accordingly, entry of the present amendment, reconsideration of all grounds of objection and rejection, withdrawal thereof, and passage of this application to issue are all hereby respectfully solicited.

It should be apparent that the undersigned attorney has made an earnest effort to place this application into condition for immediate allowance. If he can be of assistance to the Examiner in the elimination of any possibly-outstanding

insignificant impediment to an immediate allowance, the Examiner is respectfully invited to call him at his below-listed number for such purpose.

Allowance is solicited.

Respectfully submitted,
